GUIDELINE OF
INTERNATIONAL POSTER COMPETITION
DENTINE 2027

DENTINE International Poster Competition is part of the DENTINE 2027 event series in the field of art, containing information about dentistry. This competition is open to high school students around the world, as evidenced by a valid student identity card. The entire competition will be conducted online.

I. Theme

"The Oral-Systemic Connection: Bridging Oral Health and Overall Well Being"

II. Competition Categories

International Poster Competition

III. Theme Description

"The Oral-Systemic Connection: Bridging Oral Health and Overall Well-Being" invites participants to explore the dynamic relationship between oral health and overall systemic health through scientific understanding, innovative thinking, and preventive approaches. This theme highlights how conditions within the oral cavity can both reflect and influence the health of the entire body, emphasizing the importance of early prevention, accurate detection, and comprehensive oral healthcare in improving quality of life. Participants are encouraged to investigate the interconnected pathways between oral and systemic health, propose creative and evidence-based solutions, and communicate their ideas through compelling visual storytelling. By bridging dentistry with broader health perspectives, this theme aims to inspire innovative, accessible, and impactful approaches that promote healthier communities and reinforce the role of oral health as an essential foundation for overall well-being.

IV. Sub Theme

a. *"Exploring the relationship between oral health and systemic disease, as well as preventive efforts to promote overall well being."*

b. *"Developing innovative technologies and modern approaches for the detection, prevention, and management of oral-systemic health issues"*
c. *"Exploring natural resources and traditional ingredients as potential solutions to maintain oral health and support overall health."*
